

Malaffi Provider Portal Quick Reference Guide Family & Social History

Family and Social History is now available in the Malaffi Provider Portal, offering a more complete view of each patient's health background.

This enhancement supports chronic disease management by identifying genetic and environmental risk factors. By enabling early identification of potential health risks, it enhances risk management and improves risk stratification. Clinicians can now prioritise care based on the likelihood of patients developing specific conditions, leading to more personalised and effective healthcare.

The screenshot shows the Malaffi Provider Portal interface for a patient named TEST, Test (DOB: 24-Feb-1994, 30y, Gender: Male, Nationality: Egyptian). The 'Family History' tab is selected in the top navigation bar. The left sidebar shows the 'Family and Social History' section. The main content area displays several tables:

- Family History:** A table with columns: Date, Family Member, Gender, History Description, Condition Presence, and Source. It shows a record for the Mother (Female) with a history of 'Sibling has disability' (Yes) from Bsk Medical Center.
- Smoking History:** A table with columns: Date, Smoking Status, and Source. It shows a record for 2024-11-12 as an 'Ex-smoker' from Bsk Medical Center.
- Alcohol Drinking:** A table with columns: Date, Alcohol Drinking Status, and Source. It shows a record for 2024-11-12 as an 'Ex-drinker' from Bsk Medical Center.
- Education Level:** A table with columns: Date, Education Level, and Source. It shows a record for 2024-11-12 as '9-11 grades' from Bsk Medical Center.
- Employment Status:** A table with columns: Date, Employment Status, and Source. It shows a record for 2024-11-12 as 'On secondment from work' from Bsk Medical Center.
- Substance Abuse:** A table with columns: Date, Substance Abuse Status, and Source. It shows a record for 2024-11-12 as 'Benzodiazepine misuse' from Bsk Medical Center.
- Physical Activity:** A table with columns: Date, Physical Activity Status, and Source. It shows 'No Results Found'.

1

Accessing Family and Social History

- Open the patient Malaffi file through your EMR.
- Navigate to the CDV on Delta view or Patient Summary tab and select **Family & Social History** folder
- View the required fields and select the magnifying glass beside each item for more information

2

Family History

The Family History field displays the health history of the patient's family members, organised by individual family members (e.g., mother, father). Each entry includes the family member's relationship to the patient, gender, a description of their health history, the presence of conditions (Yes/No), and the source of the information.

If a family member has multiple conditions or the same condition entered at different facilities, they will be consolidated by history description (a coded field). Select the magnifying glass , to view all health history of the family member. The most recent information will display in the main window.

Note: Some family history information may be marked as sensitive and require the user to "Break the Privacy Seal" (BTS) to access the information. Follow the BTS prompts to access the information. This is indicated by the open padlock .

3

Social History

Social History contains multiple fields including:

- Smoking History
- Alcohol Drinking (Sensitive information)
- Substance Abuse (Sensitive information)
- Education Level
- Employment Status
- Physical Activity

Note: Some social history fields are marked as sensitive and require the user to 'break the privacy seal (BTS)' to access the information.
