

Malaffi Provider Portal Quick Reference Guide - Diagnostic Test Results

Diagnostic tests are now available through the CDV in the Malaffi Provider Portal. This includes a range of clinical diagnostic tests organized by specialty, such as Cardiology, Ophthalmology, Otolaryngology, Mental Health, Neurology, and Respiratory Diagnostics amongst others. Access to the longitudinal records of these data types, empowers the provision of more efficient care, supporting chronic disease management and improving patient outcomes.

2 Viewing Cardiology Diagnostics

Cardiology diagnostics include ECG (Electrocardiogram) results available as PDF reports. Expand the folder and select the document you wish to view, utilising the toolbar to modify the layout, print or download the document.

1

Accessing the Diagnostics Folder

Select the Diagnostics folder in the CDV. Specialty subfolders will be available for selection.

Expand the folder and select the diagnostic type you want to view.

Note: Diagnostic reports can be printed and downloaded by selecting the available icons

Specialty subfolders include:

- **Cardiology Diagnostics** – Includes Electrocardiograms (ECGs)
- **Mental Health Diagnostics** – Includes PHQ-9 Questionnaires
(**Note:** These are Sensitive documents and only available after 'Break the Seal')

- **Neurology Diagnostics** – Includes Nerve conduction studies & Electroencephalography (EEG) results
- **Ophthalmology Diagnostics** – Includes Optical Coherence tests, Colour Vision Panel & Visual Acuity Measurements
- **Otolaryngology Diagnostics** – Include Audiometry test results
- **Respiratory Diagnostics** – Include Spirometry test results
- **Oncology Diagnostics** – Includes Cancer staging information
- **Neonatology Diagnostics** – Includes APGAR score information

Note: BTS is only available to Primary Providers (L1 Users).

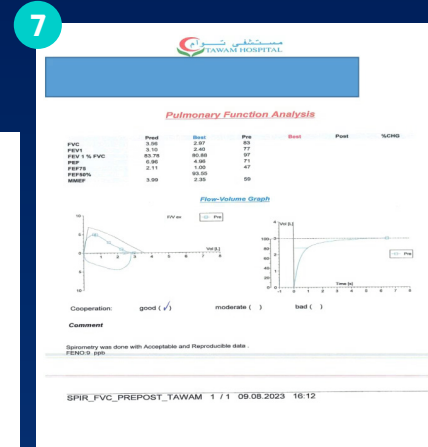

4 Viewing Neurology Diagnostics

Ophthalmology diagnostics include Visual Acuity Measurements, Colour Vision Panel and Optical Coherence Tomography Studies, available in PDF and numeric values that can be trended. Expand the folder and select the document you wish to view, utilising the toolbar to modify the layout, print or download the document.

Respiratory diagnostics include Spirometry test results available as PDF reports and numeric values that can be trended. Expand the documents you wish to view, utilising the toolbar to modify the layout, print or download the document.
